---

### SUMMARY

---

Practical Engineer with Significant Experience in Process Design, I have worked with some organizations, ensuring a grounded approach to my profession, leveraging my expertise to optimize processes and deliver innovative solutions that meet business objectives.

### PROFESSIONAL EXPERIENCE

---

#### Instrument Tech, Morcelle Program Jan 2024 - Present

- Led development of an advanced automation system, achieving a 15% increase in operational efficiency.
- Streamlined manufacturing processes, reducing production costs by 10%.
- Implemented preventive maintenance strategies, resulting in a 20% decrease in equipment downtime.

#### Internship, XarrowAI Industries Jun 2022 - Aug 2022

- Designed and optimised a robotic control system, realizing a 12% performance improvement.
- Coordinated testing and validation, ensuring compliance with industry standards.
- Provided technical expertise, contributing to a 15% reduction in system failures.

### PROJECTS

---

#### Industrial Basics and General Application Jan 2023 - Jun 2023

University of Engineering Process Cohort

- Automotive Technology.
- Technological Advancements within the current Chemical & Process Industry".
- Other relevant information.

### SKILLS

---

Prototyping Tools

User Research

Interaction Design

Visual Design

Accessibility

Responsive Design

### EDUCATION

---

#### Bachelor of Design in Process Engineering Sep 2019 - Sep 2023

Engineering University

- Relevant coursework in Process Design and Project Management.

### ADDITIONAL INFORMATION

---

- **Languages:** English, French, Mandarin.
- **Certifications:** Professional Design Engineer (PDE) License, Project Management Tech (PMT), Structural Process Design (SPD).
- **Awards/Activities:** Most Innovative Intern of the Year (2022), Overall Best Intern, Division Two (2022), Onboarding Project Lead (2024)
